[Result of Thesis: 9 \(Click for Thesis\)](#)

Master Class: Entrepreneurship - Avoiding International Barriers, Duisburg University

I got certified by the Duisburg/essen University for a Master Class in doing Business internationally. This Master Class focussed on International Tax systems and avoiding boundries that apply to Political, Legal, Financial, Strategical and Logistic problems.

Current positions

Owner at ITS-Vision (since 2005)

ITS-Vision builds webapplications and mobile apps for small businesses, retail and large companies. Together with a small but highly motivated group of freelancers we are thrived to get the best possible results for our client. With the right communication, heavy lifting and paying attention to details, we build a strong relation with our client base.

Owner at UsenetBucket B.V. (since 2011)

UsenetBucket is a usenet provider founded in 2011 by me, together with Nicke Elshof. As owner and co-founder of UsenetBucket we thrive ourselves to have the fastest connections, best support and most attractive service on the market. Our goal is to make a clients life easier and make Usenet a bit less dusty. In response to that we developed a flashy website, a mobile application and a sales and marketing strategy thats fits with our clients. UsenetBucket is currently one of the fastest growing usenet providers in Europe and is building on a large customer base.

Owner at Saltus Investments B.V. (since 2011)

Saltus Investments acquires Domain Names for Customers. At first we try to find if the owner wants to sell, then we fluently run into the process of selling it. Doing it for a fair price for both parties, we now have a 100% acquisition ratio.
